Multi-Size Inflatable Pipe Plugs Model Range | Reliance Trenchless

Source of truth:
https://reliancetrenchless.com/products/multi-size-pipe-plugs
Contact: https://reliancetrenchless.com/contact · sales@reliancetrenchless.com

How to use: Choose Series (Standard MS / Bypass MSBP / High_pressure HMSP / Steam / Protective_sleeve). Each Standard/Bypass plug is supplied with a pressure gauge and 10 m air hose per product page. Do not copy non-bypass pressure figures onto bypass models.
Do not confuse with: Not single-size SS plugs; not repair packers; not Instant-Lock SLP packers.

Confirm dimensions, materials, operating limits, inspection documents, availability and delivery terms with Reliance for each project.
