How to use: Select 4_bar (4/3 bar) or 6_bar (6/5 bar) series. Example: TP-DN150 is described as 100 mm / 4 in — model designation ≠ supported pipe diameter. Confirm actual pipe fit before ordering.

Do not confuse with: Not multi-size MS plugs; steam plugs for FIPP are listed under multi-size Steam series on the multi-size page, not as TP rows.

Confirm dimensions, materials, operating limits, inspection documents, availability and delivery terms with Reliance for each project.
